

REMARKS

Claims 32-60 are presently pending in the case. Claims 32-60 have been amended to correct their numbering.

Reconsideration of the present case in view of the above amendments and the remarks herein is requested.

Restriction Requirement

The Examiner requires Applicant to elect either the invention as set forth in claims 32-51 or as set forth in claims 52-60. Applicant provisionally elects, with traverse, the invention as set forth in claims 52-60. The traversal is on the grounds that the search for the two groups of claims would not pose a burden on the Patent Office. Withdrawal of the requirement is therefore requested.

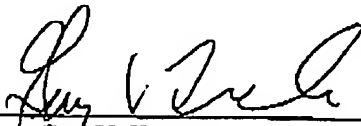

Conclusion

The claims are in allowable form, and the Examiner is respectfully requested to allow the presently pending claims. Should the Examiner have any questions, the Examiner is requested to call the undersigned at the number given below.

Respectfully submitted,
